

CASSANDRA HARBISON

Columbus, Ohio | charbison4576@gmail.com | linkedin.com/in/cassandrahARBISON

PROFESSIONAL SUMMARY

Senior IT support and automation specialist with 10+ years of experience in technical troubleshooting, systems installation, and process improvement. Completing a Master of Science in Information Technology Management at Western Governors University (expected November 2026), building on a B.S. in Information Technology. AWS Certified Cloud Practitioner and CompTIA Security+ certified, with hands-on Python scripting experience for AWS data automation. Track record of improving operational efficiency, reducing resolution times, and developing training materials and SOPs for cross-functional teams.

CORE SKILLS

Technical Support & Troubleshooting • AWS Cloud Services • Python Scripting & Automation • Network & Security Fundamentals • Linux Administration • IT Service Management (ITIL) • Cybersecurity Strategy • Cloud Strategy • Agile Leadership • Project Management • Data Management • Database Management (MS Access) • Customer Training & Support • SOP Development

PROFESSIONAL EXPERIENCE

Nielsen — Columbus, OH

Senior Installation Specialist I

April 2018 – Present

- Manage 30+ daily technical support calls, resolving hardware and software issues for enterprise clients within service-level targets.
- Built a Python automation script in Apache Zeppelin to extract and process data from AWS, streamlining reporting workflows.
- Partnered with management to develop training checklists and standard operating procedures, improving team performance and new-hire onboarding.
- Completed advanced leadership training through Nielsen's GROW leadership development program.

Field Representative (SWAT)

May 2015 – Apr 2018

- Managed a geographic territory of panelist households, providing technical support and relationship management for audience-measurement participants.
- Installed, configured, and troubleshooted proprietary hardware and software to capture audience measurement data across multiple platforms.
- Built and maintained long-term client relationships, coaching households on equipment usage and best practices.

ClearBridge Technology Group / Oracle Micros

Sep 2014 – May 2015

Implementation Specialist

- Developed and maintained databases in Access and Micros for point-of-sale systems tailored to client needs.
- Conducted database reviews and on-site hardware installations at client locations, ensuring seamless system integration.

My Service Depot

Feb 2014 – Sep 2014

Senior Help Desk Agent, Tier III

- Delivered Tier III technical support via inbound/outbound calls, email, and chat, resolving complex software issues.
- Developed custom work orders, forms, and reports using Access database to streamline help desk operations.

LEADERSHIP & VOLUNTEER EXPERIENCE

Autonomy Project — Volunteer

Oct 2024 – Present

Information Technology Team Lead / Web Administrator

- Lead maintenance of WordPress and Neon-based websites, ensuring timely updates to event pages and content.
- Develop automations to streamline daily operations, enhancing efficiency in task management.

- Conduct background checks and administrative reviews for membership approvals.
- Support event organization and coordinate volunteer efforts to foster community engagement.
